Elite Casino Products Unveils New Millennium Slot Cabinets
With Spinning Reel to Video Conversion Feature

ITASCA, IL, 11/18/08: On November 18, Elite Casino Products will launch several new additions to its Millennium Slot Cabinet Series, including the Millennium Widescreen and Millennium Reel cabinets. Featuring a particularly exciting enhancement, the Widescreen and Reel cabinets are capable of accommodating multiple platforms. Using ECP's quick and easy conversion process, the Widescreen and Reel cabinets can be converted to support spinning reel or video platforms.

At the Global Gaming Expo in Las Vegas, Elite Casino Products will unveil several new and exciting slot products. The Company plans to showcase a particularly exciting enhancement to its new widescreen LCD and spinning reel cabinets. Utilizing the Company's rapid conversion process, slot technicians can quickly and easily perform a cabinet conversion right on the slot floor. Within minutes the game can be up and running again on a new platform.

"We've designed a cabinet that can handle multiple platforms," says Scott Irving, Managing Director of Elite Casino Products, "Casinos can convert a game—giving it an entirely new platform—without the expense of a new cabinet or inconvenience of removing a game from the slot floor." The rapid conversion process allows technicians to convert a game from video to spinning reel, or vice versa, by replacing just a few components. Irving continues, "What makes ECP's conversion process different from others is that it is simple to execute. In the end, it saves our clients time and money because they can simply convert their cabinet, rather than replace an entire game."

To further develop the company's slot product portfolio, Elite Casino Products offers three new cabinet designs, as well as new top box and topper products. The Company will proudly unveil all these new products at the upcoming Global Gaming Expo. ECP's slot products are the perfect compliment to any slot game. Visit our company at the Global Gaming Expo at Booth 3474. You can also find us online at www.ecp-usa.com.

About the company:

Elite Casino Products is a manufacturer of high quality electro-mechanical assemblies specializing in gaming applications. The company's standard product line includes slot machine cabinets, bases, marquees, kiosks, and video monitor housings. Customized production options are limitless with Elite Casino Products' experienced mechanical and electrical engineers and talented production staff. All of ECP's products are designed with superior quality and durability in mind. The Elite Team is flexible and works with clients from concept inception or can go directly to production from established designs. Elite Casino Products is located 25 miles West of Chicago in Itasca, Illinois.
