Elite Casino Products Introduces the new Millennium Velocity Slot Cabinet

ITASCA, IL, 11/15/08: On November 18, Elite Casino Products is "Moving Forward with Velocity" as it launches the newest product in the Millennium Slot Cabinet Series, the Millennium Velocity Slot Cabinet. The Velocity's contemporary design combines the traditional appeal of an upright cabinet with the comfort of a slant top.

Featuring a sizeable 26-inch widescreen LCD, the Velocity appeals to players with its crisp, clear graphic capabilities. Engineered to give players an abundant amount of personal playing space, as well as generous leg and foot clearance, the Velocity's comfortable layout encourages players to enjoy lengthy play times. The player interface dashboard is conveniently located below the LCD eliminating unnecessary reaching or visual distraction across the video area.

In addition to attractive styling and cosmetic appeal, Elite Casino Products creates products that are efficient and easy to service. The Velocity slot cabinet features a patent-pending door opening mechanism that provides partial accessibility for daily and minor maintenance (ticket refill, printer or DBV service, or button panel exchange) and full accessibility for game maintenance.

"The Velocity is at the leading edge of player comfort enhancement and attractive cabinet styling," comments Scott Irving, Managing Director of Elite Casino Products. "We are very excited about the upcoming Velocity product launch at G2E. We believe that this design—with the player comfort enhancements, large widescreen LCD, and elegant cabinet styling—will be an excellent addition to our Millennium Series of slot cabinet products."

To further develop the company's slot product portfolio, Elite Casino Products offers three new cabinet designs, as well as new top box and topper products. The Company will proudly unveil all these new products at the upcoming Global Gaming Expo. ECP's slot products are the perfect compliment to any slot game. Visit our company at the Global Gaming Expo at Booth 3474. You can also find us online at www.ecp-usa.com.

About the company:

Elite Casino Products is a manufacturer of high quality electro-mechanical assemblies specializing in gaming applications. The company's standard product line includes slot machine cabinets, bases, marquees, kiosks, and video monitor housings. Customized production options are limitless with Elite Casino Products' experienced mechanical and electrical engineers and talented production staff. All of ECP's products are designed with superior quality and durability in mind. The Elite Team is flexible and works with clients from concept inception or can go directly to production from established designs. Elite Casino Products is located 25 miles West of Chicago in Itasca, Illinois.
